

## Letter from Alexander Graham Bell to Mr. Zable, March 10, 1902

480 1902, March 10 Monday At 1331 Conn. Ave. Dear Mr. Zable:

Please ask Mr. Schneider to cut two strips from each of the specimens of aluminum alloy marked No. 1 and No. 2. Let the slips be 26 cm. long. Let one slip be 3 mm. wide, and the other 4mm. wide. Mark the strips taken from sheet No. 1 "No. 1", and mark the strips taken from sheet No. 2 "No. 2", so that I can identify the materials.

Four slips in all.

Please bring back the balance of the material,

Yours sincerely, Alexander Graham Bell, per J.A.S.
